SHORT BIO:

Dr Aidan M Doyle is a Reader in Industrial Chemistry at Manchester Metropolitan University. His undergraduate degree and PhD were conducted at the South East Technological University and University of Limerick, followed by a Johnson Matthey plc sponsored postdoctoral position at the Fritz-Haber-Institute of the Max-Planck-Society and a visiting position at the Catholic University of Leuven. He has published over 60 papers in leading journals, has an h-index of 26 and over 2400 citations. Since joining Manchester Metropolitan University, Dr Doyle has secured grants totalling over £2m and led projects in nanoporous materials, zeolites, heterogeneous catalysis, emissions abatement, and low carbon fuels for transportation. He works closely with industry and has both national and international reputation as the 'go to' expert who initiates and manages projects that impact major world problems.
